### 1. Copyright Transfer

We, the authors of the manuscript mentioned above, confirm that the manuscript is an original work and has not been published in any other journal or publication, nor has it been simultaneously submitted to any other publisher. We agree to transfer the global copyright of the manuscript (including but not limited to the rights to copy, publish, distribute, disseminate, display, and modify) to *Future-AILS*. This transfer will take effect from the date the manuscript is accepted for publication.

### 2. Right of Attribution

The journal has the right to list all authors' names upon publication and in all versions and platforms of the journal, in accordance with the journal's guidelines.

### 3. Self-Archiving Rights

The authors may upload the final version of the article to personal or institutional archiving platforms for non-commercial purposes, retaining authorship attribution, no earlier than [specific embargo period, e.g., 12 months] after publication by the journal.

### 4. Third-Party Permission

If the authors wish to use the content of the manuscript (including any figures or

images) in any third-party publication or for other non-journal publication purposes, they must obtain written permission from the journal.

### **5. No Plagiarism Statement**

The authors declare that all content in the manuscript is original and does not infringe on any third-party copyrights, trademarks, patents, or other intellectual property rights. All referenced literature and sources have been properly cited.

### **6. Liability Statement**

The authors agree to assume any legal responsibility arising from the content of the manuscript that infringes on the rights of others, including any disputes related to copyright, patent, trademark, or other intellectual property.

### **7. Right of Modification**

The journal reserves the right to make necessary edits and modifications to the manuscript to conform to the journal's formatting and style requirements, without altering the academic content of the article.

### **8. Open Access and Licensing**

The journal provides open-access options subject to its terms and conditions. The default licensing is Creative Commons Attribution 4.0 International Licence (CC BY 4.0).
